

## Fly Fight Win

This country of ours so full and elite  
Gives us a home, where we can retreat.  
We clean up the land, and help her to grow  
Plow up the soil, for the future we sow.

Education we give, our youth today.  
Religion we offer, a time each can pray.  
Mountains were barriers... but we ascended these heights.  
We've entered the heavens and star-clustered nights.

-FLY-

We mimicked the birds, and learned how to fly.  
Mastered the oceans and conquered the skies.

-FIGHT-

This Nation was fought for, with muskets and knives.  
And this country we'll keep, at the cost of our lives.

-WIN-

So heed all foes, who haunt our gates.  
Beware the rightful might .. of thee .. United States  
Fly .. Fight .. Win .. America

United States Air Force
